### Design your establishment
- The Hiopos table screen allows you to intuitively and easily visualize the open accounts in your restaurant.
- Gain agility and comfort thanks to graphic table design.
- Print a subtotal, switch tables, or split the bill easily from this screen a single click.

### Create and customize your menus
Streamline the process of creating specialty products with our modifiers. Create modifiers that you can quickly and easily assign by selecting multiple products, and set the price you deem most appropriate.

### Take orders at tables
Improve customer service with HIORDER by optimizing service on terraces and tables, increase table turnover and reduce service times. Send orders instantly to screens and / or kitchen printers installed in the different production lines. Cash directly from the tables, even with a credit card with a wireless pinpad.

### Complete your products with special and personalized features
Streamline the process of creating specialty products with our modifiers. Create modifiers that you can quickly and easily assign by selecting multiple products, and set the price you deem most appropriate.

### Book and order online
Now your customers can reserve a table online 24 hours a day, from anywhere in three easy steps. With the online ordering module, the customer accesses the restaurant's menu, consults the dishes, places the order and pays with their cell phone.

### Create and customize your combos
Create and customize your combos and menus and avoid having to review and change dishes periodically. With the HIOPOS menus you can select which products you want and which days of the week they will be available. Add the products from your database without having to create them again and automatically increase the price of the menus with special products or modifiers.

### Kitchen order management
Configure the different situations of your printers to manage your orders in the most efficient way. Connect HIOPOS with our kitchen screens and you can instantly control the status of your orders.
